II SIMPOSIO INTERNACIONAL - ArthroChile 2020

ACTUALIZACIONES EN CIRUGÍA PROTÉSICA

CADERA Y RODILLA

16 y 17 de abril, 2020

Hotel Mandarin Oriental (ex Hyatt)
Av. Presidente Kennedy #4601 Santiago, Región Metropolitana

Más información e inscripciones: arthrochile2020.com o al teléfono: +56 2 3251 4970

▶ 7:30

Registration

Coffee and Donuts

▶ 7:55

Welcome and introduction of international and national faculty

▶ 8:00

Session I: General topics

▶ 8:10

• Total joint replacement in Chile: historical evolution and statistics

▶ 8:20

• GES: we have improved in THA – can we improve in TKR?

▶ 8:30

• Is there room for aspirin in Chilean MINSAL guidelines on trombofropylaxis?

• Discussion

▶ 8:50

Session II: Partial knee replacement

▶ 9:00

• Knee realignment osteotomy: who is the ideal candidate in 2020?

▶ 9:10

• Medial Uni: indications and clinical outcomes

▶ 9:20

• Patellofemoral replacement: let me present you my results

• Discussion

▶ 9:40

Session III: Primary TKA

▶ 9:50

• Multimodal pain management for TKA

▶ 10:00

• What are the consequences of moving up or down the joint line after TKA?

▶ 10:10

• The spectrum of TKA and their clinical results

• Discussion

▶ 10:30

COFFEE BREAK

▶ 11:00

Session IV: Crossfire

▶ 11:05

• Kinematic alignment - Affirms

▶ 11:10

• Kinematic alignment - Opposes

▶ 11:15

• Patellar resurface - Affirms

▶ 11:20

• Patellar resurface - Opposes

• Discussion

▶ 11:40

Session V: Complex primary TKA

▶ 11:50

• Total knee replacement after fractures about the knee

▶ 12:00

• Flexion contracture: cut more distal femur: are you sure?

▶ 12:10

• TKA in patients with extra-articular deformity:
is there a limit for correction?

• Discussion

▶ 12:30

Session VI: Video - wine tasting experience

▶ 12:40

• Presenting an outstanding wine

• Video tips and tricks: balancing a varus and valgus knee

▶ 13:00

LUNCH

- ▶ 14:30
 - ▶ 14:40
 - ▶ 14:50
 - ▶ 15:00
 - ▶ 15:10
 - ▶ 15:20
 - ▶ 15:30
 - ▶ 15:40
 - ▶ 16:00
 - ▶ 16:40
 - ▶ 17:10
 - ▶ 17:20
 - ▶ 17:30
 - ▶ 17:40
 - ▶ 17:50
- **Session VII: Controversies & TKA revision**
 - The failed TKA: prevention strategies
 - The ideal patient for: DAIR, one-stage revision and two-stage revision in PJI
 - Unstable TKA: evaluation y surgical management
 - Stiff TKA: causes and solutions?
 - Extensor mechanism reconstruction: alternatives and clinical results
 - Management of severe bone loss in TKA revision
 - Inter-prosthetic fractures: that’s a big problem?
 - Discussion
 - **Session VIII: My worst case competition**
 - **COFFEE BREAK**
 - **Session IX: Innovation in knee recon surgery**
 - Do you want to improve your results? use patient specific instrumentation!
 - Chilean experience with robotic assisted knee replacement
 - Sensors in total joint replacement
 - Discussion
 - AAHKS Highlights

APRIL 16 TH 2020

- ▶ 7:30
 - **Registration**
 - Coffee and Donuts
 - **Session X: General topics**
 - Patient reported outcome measures (PROMs): incorporating them into routine clinical practice
 - Patients with high-risk comorbidities: is there a limit to say NO?
 - Outpatient TJA: what do we need to start?
 - Discussion
 - **Session XI: Primary THA**
 - “Safe zone” + stem version + spinopelvic parameters = new stability concept
 - Not all uncemented stems are equal: types, indication and outcomes
 - Which holds the future: metal-on-poly or ceramic-on-poly?
 - Discussion
 - **Session XII: Fracture about the hip and THA**
 - Non displaced intracapsular hip fracture in elderly people: are you sure always ORIF?
 - Displaced intracapsular hip fracture in elderly people: THA versus HA?
 - Acute THA after acetabular fracture: a cavalier decision?
 - Discussion
- ▶ 8:00
- ▶ 8:10
- ▶ 8:20
- ▶ 8:30
- ▶ 8:50
- ▶ 9:00
- ▶ 9:10
- ▶ 9:20
- ▶ 9:40
- ▶ 9:50
- ▶ 10:00
- ▶ 10:10

▶ 10:30

COFFEE BREAK

▶ 11:00

▶ 11:10

▶ 11:20

▶ 11:30

▶ 11:40

▶ 11:50

▶ 12:00

Session XIII: Complex THA & controversies

- DAA: advantages and disadvantages compared with other approaches
- Patients at high risk of dislocation: large heads or dual-mobility bearings?
- Limb length is not correct: what's next?
- Treatment of intraoperative periprosthetic fracture
- Adult hip dysplasia: can we delay the need for THA?
- Severe adult hip dysplasia: lessons learned
- Discussion

Session XIV: Video – wine tasting experience

- Presenting an outstanding wine
- Applied anatomy related to DAA

▶ 12:20

▶ 12:30

LUNCH

▶ 13:00

Session XV: Controversies & THA revision

- First approach to painful THA
- PJI diagnosis: step-by-step
- DAIR: indications & results
- Pelvic discontinuity: treatment options
- Management of severe acetabular bone loss: would you use cement?
- Discussion

▶ 14:30

▶ 14:40

▶ 14:50

▶ 15:00

▶ 15:10

▶ 15:20

Session XVI: Cases - what would you do?

▶ 15:40

COFFEE BREAK

▶ 16:20

Session XVII: Innovation in adult joint recon surgery

- Cell-based therapy & hip surgery: state-of-the-art
- 3D printed implants and models
- Chilean experience with robotic assisted THA
- Digital health & orthopedics
- Discussion

▶ 16:50

▶ 17:00

▶ 17:10

▶ 17:20

▶ 17:40

Closure

Closure and announcement of e-poster winner

▶ 17:50
